

BEND TABLE LAMP

BEND is a hybrid between a static symmetric table lamp and a flexible work lamp that combines the elegance of interior lighting with the bold character of industrial desk lamps. The cast base supports a centred gooseneck tube that allows the head to bend freely in all directions. An integrated grip at the top of the lampshade intuitively suggests the way to aim the light, while a surface touch function at the base turns the lamp on and off. BEND combines historical references with the use of modern LED technology to provide a contemporary character fit for home, office and hotel settings as a convenient and versatile light source.

General Information

Lighting type:		Table lamp
Article:	Light grey	750658
	Dark grey	750665
	Black	750672
EAN code:	Light grey	5705639750658
	Dark grey	5705639750665
	Black	5705639750672

Dimensions

Width:	25 cm
Height:	31 cm
Weight:	2,5 kg

Illuminant

Socket:	LED 8W (built-in 2800 Kelvin)
Dimmer:	3-steps on base
Energy class:	A*

Material & Color

Material:	Metal
Color:	Light grey
	Dark grey
	Black
Cable:	1,8 m black plastic
